Beautiful Mother Bulbs Fresh From the Fields of Holland!

The "mother" bulbs grown only in the sandy bulbfields along the North Sea here in Holland are the finest bulbs in the world. They have to be because they produce bulb-lets for future generations of tulips.

And these same mother bulbs are the very ones you get next Fall when you order from Breck's Advance Bulb Sale!

You can be sure of getting these superior quality bulbs because we're right here on the spot when the bulbs are dug. We actually examine countless thousands of bulbs before deciding which ones to send to our customers in America. Your individual order will be assembled and packed right here in Holland within a few days after the bulbs are taken from the ground. Is it any wonder we can guarantee Breck's to be the finest bulbs you can buy?

Order Now — Pay Next Fall...

Here's how our famous Advance Bulb Sale works. You place your order any time up to the 15th of July 1956. Simply fill out the order form enclosed, or order on your own letter paper.

We airmail orders to our Holland office — in exact sequence as we receive them. Then, when the bulbs are dug, your individual order will be expertly assembled and packed in our own modern bulb warehouse.

Fast steamers then bring the bulbs in early Fall to our Boston headquarters, where we stamp and ship your package by U.S. parcel post or express. No duty or import fees of any kind to pay! You may order now and we'll bill you for your bulbs, plus postage, at planting time. Or to get FREE the 15 blue Glories-of-the-Snow bulbs, and to have Breck's pay all postage, simply enclose remittance in full with your order.

Barge load of tulip blooms being removed from bulb fields.

Every field in which Breck's bulbs are grown is kept immaculately clean. This insures vigorous, healthy bulbs. As illustrated above, every bloom is picked off the mother plant so all the strength can go into the bulb instead of into the flower.

After digging and curing, Breck's bulbs are inspected and certified to be true-to-name and quality by an inspector for the Holland Government. Then the bulbs are further examined by American Dept. of Agriculture experts to be sure they're disease-free. All Breck's bulb shipments bear the seal both of the Dutch and the U. S. Government Inspectors.

Holland's Choicest DIRECTLY To You...

Holland bulbs sold by other American firms usually go from the grower to an exporter, to an American wholesaler. Then they may be handled 2 or 3 times more before you get them.

When you buy from Breck's Advance Bulb Sale, your bulbs are packed in Holland and never touched again until you yourself open the package!

Experts here in Holland insist that bulbs are so delicate "they must be handled like eggs!" Thus, you can see why Breck's direct-to-you bulbs grow and bloom better!

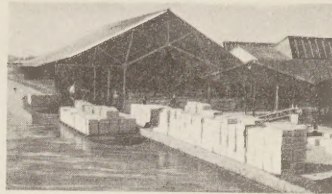

Breck's buyers in Holland examining test planting to select varieties for this Sale.

PLEASE NOTICE: YOU MUST ORDER BEFORE JULY 15, 1956. After this date, bulbs will be shipped to Amerika to be sold at regular prices.

Holland bulbs give their glorious bloom each Spring and can only be planted in the Fall months. We mail this Sale Folder at this time, during the blooming season, so you can better plan your Fall planting needs.

Breck's Holland WAREHOUSE

Hillegom, Holland —

The picture shows one end of the new Breck's bulb warehouse in operation. It is considered the most modern in Holland. Baskets and crates of bulbs are brought to the warehouse by canal barges.

Hillegom is in the "heart" of the famous bulb district. The flat sandy bulb fields in which the finest bulbs are grown spread out as far as the eye can see in every direction. In the Spring, these fields are a vast carpet of beauty when the bulbs start coming into bloom. Here is where the most experienced, reliable growers have lived for generations, many still working the same land on which their fathers and grandfathers grew bulbs before them.

Upon arrival at the Breck's warehouse, the barge-loads of bulbs are first sorted according to size. The biggest, most vigorous ones are for Breck's orders; the smaller ones sold to other exporters.

Then the bulbs are examined for bruises or other defects. Next cleaned, cured and finally they're ready for putting into the famous green "baby bags" that identify Breck's bulbs. Your individual order is assembled and packed right here from this choice stock.

No other American firm can give you such direct service — or such top-quality bulbs at such substantial savings!

The World's LARGEST
and EARLIEST Tulip!

RED Emperor

Wherever you go in the early Spring, you will see and hear about Red Emperors. People plant them by the hundreds for spectacular effects. Yes, here's a gorgeous Tulip that actually blooms before the Crocus fade, with the Daffodils and Hyacinths... The only fall, large Tulip to flower so early. Massed in beds, grouped in the garden or arranged indoors, they create unusual excitement. Red Emperor is a masterpiece of brilliancy, grace and size. The color is spectacular... shining vermilion-scarlet, fluorescent in the sunshine. They open dinner plate size to reveal a richer hue of scarlet, with a glowing yellow base, ringed with black. Huge 9 in. blooms on 15 in. stems with robust foliage. Breck's Red Emperors are top-quality re-selected stock... guaranteed true to name. They are the finest bulbs you can buy anywhere... they are grown especially for Breck's.

THALIA. "The Orchid-Flowered" Daffodil. This triandrus hybrid is widely known because of its very unusual orchid-like form. Each stem holds 3 to 4 pure white blooms, having gracefully recurved petals with the trumpets at an interesting angle. Each lovely bloom reminds you of a pure white orchid. Especially suggested for spots where something out of the ordinary is desired.

CRESTED MARVEL

Here's an amazingly different tulip! It's a beautiful rich crimson color, with velvet texture and graceful cup-shape. But where the petals of all other varieties have smooth, rounded edges . . . Crested Marvel has an amazing delicate 3/4 inch FRINGE! Each beautiful petal is outlined with this unusual fine feathered edge, giving it a soft quality never before found in tulips.

Crested Marvel was discovered by one of our bulb buyers last spring while he was examining hundreds of test varieties in Holland. This particular tulip stood out from all the others like a beacon of beauty because of its amazing lacy edges. Crested Marvel is a strong, reliable grower; has remarkable striking color, strong stems that hold the blooms 22 in. high. Blooms reliably in mid-season, following the early tulips. We strongly recommend it in every way!
